Jamii Bora Guide for the Pregnant Mother

Grace Africa
Grassroots Alliance for Community Education

The Jamii Bora Maternal Newborn and Child Health (MNCH) Project is a three-year European Union (EU) funded project whose goal is to contribute to the reduction of maternal mortality by two thirds and child mortality by three quarters in Samburu County (Samburu East, Samburu North and Samburu Central Sub Counties) by the end of three years in (2013 - 2015).

The project is implemented by a consortium comprised of Ananda Marga Universal Relief Team (AMURT) Kenya, National Organization of Peer Educators (NOPE), Grassroots Alliance for Community Education (G.R.A.C.E) Africa, and Matibabu Foundation Kenya (MFK).

The project has four strategic objectives that focus on (1) increasing access to and utilization of quality MNCH services; (2) increasing access to and uptake of SRH and FP services; (3) reaching the target beneficiaries with community MNCH promotive actions; and (4) improving household incomes by the end of three years.
